Emergency Preparedness and First Aid Merit Badge Requirements Covered at 2008 Thunderbird Camporee

Emergency Preparedness

3. Show how you could safely save a person from the following:
 - a. Touching a live electric wire.
 - b. A room with carbon monoxide
 - c. Clothes on fire.
 - d. Drowning using nonswimming rescues (including accidents on ice).
4. Show three ways of attracting and communicating with rescue planes/aircraft.
5. With another person, show a good way to move an injured person out of a remote and/or rugged area, conserving the energy of rescuers while ensuring the well-being and protection of the injured person.
6. Do the following:
 - a. Tell the things a group of Scouts should be prepared to do, the training needed, and the safety precautions they should take for the following emergency services:
 1. Crowd and traffic control
 2. Messenger service and communication.
 3. Collection and distribution services.
 4. Group feeding, shelter, and sanitation.
 - b. Identify the government or community agencies that normally handle and prepare for the emergency services listed under 6a, and explain to your counselor how a group of Scouts could volunteer to help in the event of these types of emergencies.
 - c. Find out who is your community's disaster/emergency response coordinator and learn what this person does to recognize, prevent and respond to emergency situations in your community. Discuss this information with your counselor and apply what you discover to the chart you created for requirement 2b.
7. Take part in an emergency service project, either a real one or a practice drill, with a Scouting unit or a community agency.

First Aid

2. Do the following:
 - a. Explain how you would obtain emergency medical assistance from your home, on a wilderness camping trip, and during an activity on open water
3. Do the following:
 - a. Explain what action you should take for someone who shows signs of a heart attack.
 - b. Identify the conditions that must exist before performing CPR on a person.
 - d. Show the steps that need to be taken for someone suffering from a severe laceration on the leg and on the wrist. Tell the dangers in the use of a tourniquet and the conditions under which its use is justified.

First Aid (continued)

4. Do the following:
 - a. Describe the signs of a broken bone. Show first aid procedures for handling fractures, including open (compound) fractures of the forearm, wrist, upper leg, and lower leg using improvised materials.
 - b. Describe the symptoms and possible complications and demonstrate proper procedures for treating suspected injuries to the back, neck, and head. Explain what measures should be taken to reduce the possibility of further complicating these injuries.
5. Describe the symptoms, proper first aid procedures, and possible prevention measures for the following conditions:
 - e. Bruises, strains, sprains
 - f. Burns
6. Do the following:
 - a. If a sick or injured person must be moved, tell how you would determine the best method.
 - b. With helpers under your supervision, improvise a stretcher and move a presumably unconscious person.
